*Fitting all the pieces...*  
**TOGETHER**

# Can I use Telehealth?

- Payer guidelines
- Scope of Competency
- Risk Assessment

# Foundations of Telehealth

- Consent
- Secure Environment
- Technology
- Interpersonal Skills
- Building Rapport
- Communicating
- Training
- Feedback
- Troubleshooting

# How can Telehealth be used in ABA?

- Initial Assessment
- Parent Training
- RBT Training
- Supervision
- Consultations
- Direct Session

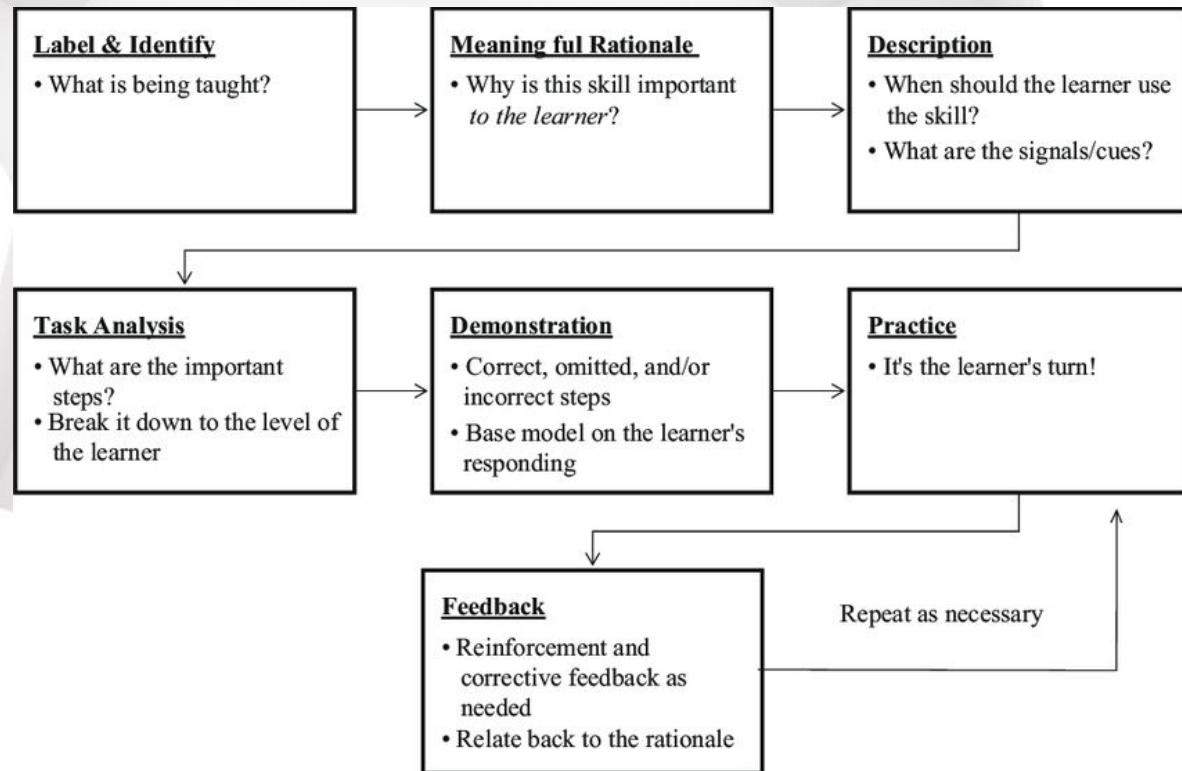

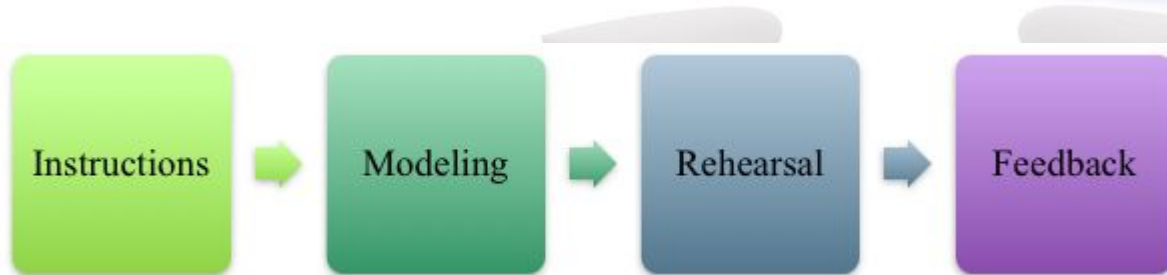

# Is Direct Session Right for my Client?

- The client engages in joint attention
- The client has receptive skills
- The client has independent play
- Instructional control is maintained in person
- Client has zero or low frequency elopement Bx
- Client has zero or low frequency escape maintained Bx
- Client has zero or low frequency SIB
- Parents are willing to assist if needed
- Not having session will be detrimental to daily living

# Direct Session

- **Type or level of client**
  - Early Learner
  - Social Skills
  - Life Skills
- **Access to technology**
  - How stable internet connection?
  - Phone, Ipad, Computer
  - Number of devices
- **Response to technology**
  - Control
  - Reinforcement
  - DO NOT OVER USE

# Parent Training

# Parent Training vs Direct Session with Parent Support

CHILD BEHAVIOR

NOT

PARENT BEHAVIOR

# Data Collection

- Parent Training Session
  - Parent goals
  - Client goals
  - Phase change/event line
- Direct Session
  - Client goals
  - Modifications
  - Recording

ONE SIZE  
FITS ALL

# Thank You
